

Opposed to:

H.B. No 5262 Act Revising Certain Absentee Voting Eligibility status

S.V. No. 184 Extending through 11/8/22 Eligibility to Vote by Absentee Ballot

Vivian & Michael P.

Brookfield, CT

We the people are no longer going to stand quietly, and together we will speak up to keep the integrity and security of the voting system from the hands of illegal voters.

We the people have spoken many times in our distrust and questioned dishonest processes that have taken place in the past. Governor Lamont the people elected you, but you continued to fail us. You are not listening to us. You are listening to your own agenda. We do not want our voting systems compromised. It is simple, Voter i.d. is needed in order to vote. These racist distorted lies must stop. Everything nowadays is racist. If you disagree with someone's views, you are a racist. It is a shame that the President who is supposed to have helped unite us, per his speeches prior to election, has done the opposite.....always claiming racism.

I am a minority, and my point of views are not racist, they are just that, my personal point of view and beliefs. What happened in our last election was a disgrace. What a poor execution of getting the results of an election with questionable tactics used. There was ballot harvesting, ballots submitted multiple times with the same name, ballots from dead people.... all these ballots were mailed out and this was the outcome. Extending the time for voting, gave dishonest people an opportunity to flood the system with additional fraudulent ballots. So, recommending the voting process to continue as what happened in 2021 is your idea of success?

I remember seeing John Robert Lewis joke about mail in ballots.....not in a positive way.

It was not a feel-good moment when suitcases hidden under a table at a voting facility were taken out late, after most of the personnel had left. This was more than suspicious.

So, you want to continue that sham, in processing absentee ballots which have not been truly verified. Please, you know there are many opportunities for voter fraud to happen if you proceed in passing this bill.

You and the current administration, unfortunately, have forgotten about the American people and are more concerned with the rights of others. Americans who have built this country, through sweat and tears, Americans who have fought for this country for freedom, liberty, and justice. So, you can easily destroy the integrity of our voting rights.

Norway, Northern Ireland, Germany, Switzerland, France, Israel, Mexico, Iceland and 46 of 47 European countries require photo i.d. to vote.

When an illegal vote is cast and counted, it cancels out the legal vote of a lawful citizen.

It is your responsibility to continue to support our civil rights rigorously with voter integrity.

It is simple, basic security protocols like voter i.d. that protect voters and the honesty of our elections.

The census bureau showed that voter registration in 2020 reached 72.7%, a higher registration rate than in the 2016, 2012, 2008, 2004 and 2000 presidential elections.

Americans of all races, including Black people, who support voter i.d. as a common-sense requirement.

The census does not lie.... people do, to brainwash others into believing false narratives.

The following are some examples of when you need an i.d.:

- Doctor's office
- DMV
- Traveling
- Opening a bank account
- Entering a government building
- To receive Welfare benefits
- Social Security benefits
- To buy a gun
- Buy liquor
- Right to assembly
- To marry
- To check into a Hotel
- Mandatory vaccine establishments

Respectfully,

Vivian & Michael P.
